

Beautiful nightmares (the sickest?)

You and I don't lie side by side no more
And I'm truly pleased
I hope that one of us dies in our sleep
If it were you I would master black magic and bring you back just so I can kill you myself
You see I'm the curse on all wigi boards when you move the planchette
I'm busting though your table
To beat you to death with your friends body
You laugh now but will you really play?
You see I have the power to turn sad dreams into beautiful nightmares
There is not any soul out there who can take my words and make them sweet
Who the fuck do you think you are?
You want to fuck my world up?
I'm sorry I beat you to it
Karma isn't on your side
I've tamed the Cerberus
I jumped venom with a carrier bag over his face
Bitch I'm the reason why people over dose on booze and pills
Killing yourself won't end this but it's a start
I'll see you in hell
When your alarm clock rings be ready as I'll be there with a pillow to suffocate you to death
For my sick and twisted joke
My beautiful nightmare is just for the world to see
To see I'm beyond saving
